The Experience Menu

01 Song House Live: The Intimate Experience

A two hour immersive experience where your guests watch Nashville's top songwriters take raw ideas and turn them into fully realized songs in real time, then hear those brand new songs performed live.

02 Song House Live: The Main Stage Experience

Your audience shares their stories before the event. Our writers turn them into original songs and perform them live from the stage. There is nothing like watching a thousand people realize the song is about them.

03 Breakout Songwriting Sessions

Small groups of up to 15 people share their stories in intimate sessions. With our writers guiding the process, your team becomes the songwriters. This is where the magic happens and the real connections are formed.

04 Custom Songs for Your Brand

We write and produce an original song built around your event, your brand, or a specific moment you want to honor. Delivered as a polished live recording your team can use forever, with the option to develop into a full studio production.

05 Roaming Performers

Singer songwriters placed in lobbies, hallways, breakout areas, and event spaces so everywhere your guests go, there is original music being performed.

06 Live Full Band Experience

A full band led by Tyler Ward performs an energetic set of original songs, crowd favorites, and covers. Perfect as your main stage closer or a high energy anchor for larger events.

07 Tyler Ward: Keynote Speaker

From a bedroom studio to over two billion streams. Tyler speaks on creativity, courage, and the transformative power of storytelling. Past stages include TEDx Nashville and major conferences. He has shared the stage with Earth, Wind and Fire and The Beach Boys.

08 Content Capture for Your Event

Professional video, behind the scenes footage, highlight reels, and produced music content. We specialize in virality and modern content that lives across socials.

Mix and match any of these to build a custom experience.

About Tyler Ward

Air Force veteran. Father. Independent artist with over two billion combined streams and views. Tyler built Song House from the ground up to solve the problems he saw young artists facing: financial strain, lack of exposure, and no real community. He now brings that same creative energy and honest storytelling to brands and organizations looking for something real.
